ARCHITECTURE + DESIGN**

105 SOUTH 7TH STREET
PHILADELPHIA PA 19106

Charter High School for Architecture and Design

Medication Protocol

Any student, who requires medications during school hours, including Asthma inhalers, must have the proper documents on file in the Health Room Office. This includes a signed consent form from the student's parent/guardian, and the supplied medical order form completed by the student's physician. The medication must be in its original labeled container from the pharmacy with the student name. Students who would like to carry their medication on their person must have a separate form filled out by their physician as well.

All students require a parent/guardian signed consent form completed in order for student to receive Tylenol/Motrin (or their generic forms) in the health office.

These forms can be found on the Health Office Web Site

Any student with medication on their person that does not have the proper documentation in the health office will be subject to disciplinary actions as per the student hand book.

If there are any questions please contact the school nurse.
